

cycleofgood

Don't bin your old inner tubes, bring them
here!

We are collecting old inner tubes to send to Malawi

Quality goods handcrafted in Malawi using recycled materials like your old bicycle inner tubes.

We train tailors in the world's poorest places so they can earn a decent living and support their families.

All the money we make pays for childcare and non-profit social enterprise in Malawi.

That's why it's called the Cycle of Good!
