

# The Cycle of Good Guide to Inner Tube Recycling

## **Any size**

Any size, any shape! Skinny tubes from road bikes, chunky tubes from mountain bikes, tubes from tiny tots' bikes; we love them all!

## **No slime**

Please! It is just super messy!

## **Patches**

Tubes with puncture patches are great too, in fact they add character. The more puncture patches the merrier!

## **Valves**

We accept tubes with or without valves, but we are currently trying to think of a way of upcycling those too.

## **Send them our way!**

You can either post your tubes directly to us, or if you have managed to gather a sizable amount, get in touch and we will see if we can arrange a collection!
